

AUSTRALIAN ECOSYSTEMS

Senior Site Supervisor – Landscape Construction

Australian Ecosystems is currently looking to employ a landscape site supervisor for our Commercial Landscape construction projects. This position will provide the opportunity to work on a wide range of innovative, large scale, sustainable landscapes for a wide range of clients. Australian Ecosystems (AE) is an award-winning landscaping company, servicing a wide range of clients across the Greater Melbourne region over the past 20 years, including Tier 1 contractors working on infrastructure projects, as well as developers, landscape architects, government bodies, schools, and private clients. Projects range from \$100k through to multimillion-dollar projects. As well as being part of a great team, the successful candidate will also benefit from our company's commitment to staff development, with the opportunity to receive further training in relevant areas of interest to further develop your skillset. This package includes all necessary resources including a vehicle.

Demonstrated experience in the following Landscape Construction areas would be of great advantage;

- Gardens, parks, streetscapes and public open spaces
- Waterways, wetlands and bushland areas
- Commercial, industrial and residential estates

Roles and responsibilities include but not limited to;

- Oversee the safe operation of your staff and the activities of the division in line with OHS policies, procedures / legal requirements, and manage maintenance division consistent with ISO standards relating to OHS, EMS and QA
- Organisation of on ground works including but not limited to ground preparation/earthworks, concrete path construction, boardwalks and other structures, retaining walls, rockwork, bollard and fencing install, jute mat and mulch installation, grass and turf establishment, Advanced tree install, large scale plantings, herbicide application and other landscape construction items.
- Work within AE construction management system including reporting on weekly and monthly budgets and project progress. Daily Scheduling of the works program for allocated projects and provide feedback to Construction Project Manager on the monthly work plan.
- Appropriate care, use and maintenance of all company equipment
- On ground training of staff across the division in all facets of Landscape Construction to assist in the upskill of all staff in your team.
- Building strong working relationships with the Landscape Architects, Developers and Local government authorities to deliver projects and contribute to the winning of repeat work

Important qualities and qualifications include;

- Certificate III qualification in Landscape Construction/Civil Construction or similar (Horticulture)
- Current national accredited tickets; Small Excavator, Posi track, and/or MR Truck license. At least two years of experience is required.
- Construction Industry White Card, Current Australian driver's license for Medium Rigid (MR) class or above.
- Excellent communication skills, both via phone, email, and person to person. Strong decision making and problem-solving skills
