

## Civil Landscape Foreman/Supervisor

Australian Ecosystems (AE) is currently looking to employ a Landscape & Civil Foreman/Supervisor. This position provides the opportunity to work on an extensive range of innovative, large scale, sustainable landscape projects for a wide range of clients.

### Our Story

AE has been working to assist government, industry and the community to improve the biodiversity and liveability of our communities for over 20 years. We have a large, multiskilled team of passionate employees who work hard to make sure our clients are satisfied with our services.

We are an award-winning landscaping company, delivering integrated landscape construction services for greenfield subdivisions, industrial estates, civil projects and individual homes. Key clients include Tier 1 contractors working on infrastructure projects, as well as developers, architects, government bodies, schools, and private clients. We specialise in the Construction, Maintenance of Wetlands, Open Space Reserves, Streetscapes, Sports & Community Recreational Fields.

### You will need to

- Have relevant experience and proven track record in leading a team and undertaking Civil/landscape works including but not limited to all aspects of hardscaping works including site set out, concreting, retaining walls, shelters, pedestrian bridges, playground, street furniture installations, timber works, and soft scaping (including garden bed preparation, planting and irrigation).
- Proven track record in delivering high quality commercial Civil/landscape construction projects.
- Effectively manage multiple projects simultaneously.
- Proven track record completing commercial Civil/ landscape projects within time, scope and to a high-quality standard.
- Have the ability to manage sub-contractors, suppliers, staff and training and mentoring of apprentices.

### Experience and Technical Skills

- Minimum 5 years' experience in commercial Civil/ landscape construction including industry best practice, problem solving skills and knowledge of OH&S standards and practices.
- Excellent time management skills
- Excellent communication skills, including effective negotiation skills,
- The ability to identify possible issues before they arise, and provide solutions
- Experience in leading and training a team
- Certificate in Landscape Construction will be highly regarded.
- Current manual Drivers License and White Construction Card

### Benefits include;

- Competitive Remuneration (in line with experience)
- Company vehicle
- Salary Sacrificing options (Superannuation)
- Job security
- A workplace committed to safety, diversity, and sustainability of our planet
- First class equipment and facilities
